Personal Profile

Results-driven **Data & Product professional with 13+ years of experience** in product management, data analytics, and business analysis, **leveraging Generative AI, Microsoft Copilot, GitHub Copilot, and AI-assisted analytics** to accelerate product delivery, automate insights, and support decision-making in banking and contact center environments. Experienced driving data-led strategies, agile execution, and regulatory-aligned delivery across financial services.

Education

- B.E. (Electronics & Communication Engineering) from Technocrats Institute of Technology (Main), RG TU, Bhopal | 2008 - 2012

Core Competencies

- Retail Banking & Regulation Adoption
- Wealth management Banking.
- IVR Contact Center.
- Identity and Access Management (IAM)
- Customer Relationship Management
- Risk Management.
- Benefit Management.
- Strategy Planning.
- US Banking.
- Data Analytics.
- Product Development/Refinement.
- Operational Efficiency.

Knowledge Purview

- AI Enablement in Business process.
- Digital Transformation.
- Regulatory & Compliance Awareness.
- Cloud & on -Prem Integration projects.
- Gap analysis & Impact Assessment.
- Business Process Modeling.
- Product Management.
- Data & Technical Analysis.
- Operational Reporting.
- Technical Documentation.
- Requirement elicitation.
- Requirements Gathering.
- Agile expertise.
- BI tools.
- Stakeholder Relations.

Profile Summary

- Accomplished **Senior Data Analyst, Business Analyst, and Product Manager** leveraging **Generative AI, Microsoft Copilot, GitHub Copilot, and prompt lifecycle management** to drive innovation, accelerate product delivery, and transform complex datasets into **actionable, decision-ready insights**.
- Proven track record in delivering **customer-centric solutions in financial services**, with expertise in **digital transformation, contact center analytics, and GenAI-powered IVR, agent assist, and AI-driven reporting** using platforms such as **Genesys Cloud, Power BI, OpenAI APIs, and agentic AI frameworks**.
- Strong collaborator and **cross-functional AI adoption leader**, skilled in aligning business goals with data and AI strategy and guiding agile teams through **AI-augmented development cycles** to deliver high-impact outcomes.
- Deep experience in **banking IT and AI-enabled transformations**, with expertise in **regulatory compliance, Responsible AI adoption, identity and access management (IAM), IVR-to-cloud migration**, and project management consulting.
- Adept at crafting and maintaining **AI-ready strategic documentation**, including SOPs, BRDs, compliance frameworks, prompt catalogs, and agile artifacts, ensuring **traceability, audit readiness, and regulatory alignment** in financial environments.
- Proficient in **AI-assisted project planning and execution** using **JIRA, Power BI, Trello, MS Planner, MS Project, Microsoft Copilot**, with hands-on experience deploying **GenAI automation for contact center**, including **IVR optimization, AI agent-assist, call summarization, and intelligent reporting**.
- Skilled in **AI-enabled business process modelling**, requirement analysis, and visual documentation using **Visio and Draw.io**, enabling faster stakeholder alignment and implementation.
- Successfully led **AI-driven automation initiatives** leveraging **Copilot workflows, GitHub Copilot-assisted SQL and automation scripts**, and intelligent reporting—delivering **measurable cost savings and productivity gains**.
- Maintains high standards of application quality and delivery by combining **AI-augmented SDLC practices** with agile and waterfall methodologies for effective **release, defect, and change management**.
- Experienced in leveraging **cloud technologies (AWS)** and **AI-enhanced data visualization tools** (Power BI, Grafana, Tableau) to enable **near real-time insights**, improve operational efficiency, and support **strategic, AI-informed decision-making** in banking transformations.

Work Experience Snapshot

Aug'21-Present | PMO Lead / Asst. Manager Data Business Analyst / IAM Lead / Product Owner | Synechron Technologies private Ltd.

Responsibilities:

- Since Jun'24, **Product Owner / Technical Business Analyst** for **Morgan Stanley Wealth Management Contact Center Analytics**, delivering **AI-enabled analytics and cloud-based Power BI dashboards** for leadership teams.
- Driving **Generative AI adoption** via **prompt management, AI call summarization, Q&A automation, and Agent Assist / Call Assist (Genesys Service Assist)** to improve agent productivity and CX.
- Leveraging **Microsoft Copilot and JIRA GenAI** for PRDs, user stories, backlog grooming, sprint summaries, and release notes, accelerating delivery and documentation quality.
- Utilizing **GitHub Copilot** for **AI-assisted SQL validation, automation scripts, and API testing**, improving analytics reliability and speed.
- Designing **Genesys and Power BI dashboards** for agent performance, queue health, workforce KPIs, and CX metrics to enable **faster data-driven decisions**.

AI & Generative AI

- **Microsoft Copilot** (Productivity, Documentation, Backlog Grooming, Reporting)
- **GitHub Copilot** (AI-assisted SQL, API testing, automation scripts)
- **Prompt Engineering & Lifecycle Management**
- **Generative-AI** for **Q&A, Summarization, Sentiment Analysis**
- **Agent Assist & Conversational AI** (Genesys Service Assist)

Technical Skills

- **Version Control:** TFS, Git, Visual Studio.
- **Cloud Platforms:** AWS Basics
- **Database:** Oracle SQL, JQL, MS Access.
- **Middleware:** Kafka
- **Reporting:** JIRA, Azure Dashboard, Clarity, Jive sites, Confluence.
- **PM Tools:** Trello, MS Planner, CoPilot, Azure Boards, Confluence, JIRA.
- **Methodologies:** Agile, Waterfall, XP, Kanban, Scrum, Scrumban, Scrum of Scrum.
- **Visualization:** Power Bi, Genesys Dashboards, Skykit, Grafana, Tableau.
- **Data Analysis:** Excel, SQL, Power Query
- **APIs & Integration:** Working with Genesys APIs.
- **ETL/Data Integration Tools:** SQL-based ETL
- **Contact Center Platforms:** Genesys Cloud, IVR System.
- **Other tools:** SailPoint, Draw.io, Visio, Adobe XD, Airtable.

Soft Skills

- **Analytical Thinking:** Translates complex data into actionable insights to drive business and product outcomes.
- **Agile & Adaptive:** Collaborative in fast-paced environments, with a focus on iterative delivery and continuous improvement.
- **Stakeholder Management:** Builds strong relationships across business, product, and technical teams to ensure alignment and impact.
- **Problem Solving:** Skilled at identifying root causes, analysing system gaps, and delivering scalable, data-driven solutions.
- **Communication & Storytelling:** Bridges business and tech through clear, insight-driven narratives and visualizations.

- **Jan'23 – May'24:** Led **IAM Adoption Program** at **BNY Mellon**, managing a **70+ member team** and onboarding **~1000 applications annually** with secure, compliant access controls.
- Building **JIRA dashboards, Confluence reports, and Excel automation**, improving operational visibility, governance, and efficiency.
- Driving **agile and AI-augmented delivery practices**, improving timelines, productivity.
- **Aug'21 – Jan'23:** Led **T24 AA modernization and CPR regulatory compliance** at First Abu Dhabi Bank, delivering **PwC-validated** compliance across Retail and Islamic Banking.

Dec'19-Aug'21 | Business Analyst / Product Owner / Scrum Master | Gravity iLabs (Business Studio).

Responsibilities:

- Led the StrategyDotZero (SDZ) project, managing enterprise performance monitoring and business planning.
- Tailored Jira and Power BI dashboards for clients like the Department of Prime Minister & Cabinet, Department of Finance, and Department of Defense.
- Implemented a data-driven approach to enterprise performance monitoring, resulting in increase in data accuracy and actionable insights for clients.
- Conducted training sessions on agile methodologies and best practices, leading to increase in team efficiency and decrease in project delays.

Achievements

- Articulated a clear product vision and user stories, facilitating transparent project management processes.
- Led as Scrum Master for the Customer Success team, ensuring successful sprint ceremonies and product backlog refinement.

Jan'13-Dec'19 | Business Analyst / IT Analyst | Tata Consultancy Services

Responsibilities:

- Improved the Direct Bank Sales Application's features to align with North American banking regulations, ensuring seamless functionality.
- Acted as a subject expert for retail product solutions, maintaining client relationships and documentation standards.
